EVERY THINGS YOU NEED FOR VINYL RECORDS

Vinyl record clamp

N-190

- Designed to stabilise vinyl records by using the clamping motion to level vinyl surface when playing on record players to get a better sound quality. The clamp is suitable for any 7" & 12" record players.

Instructions:

- Place the vinyl record clamp onto the centre spindle.
- Push the clamp down until it touches the vinyl record firmly.
- The top half of the clamp will stay in the position where as the bottom half of the record clamp will move with the vinyl record when playing.
- The clamp would automatically stabilise when pressed to record but please make adjustment if need be due to all record players and record is different.
- Simply switch on the record player and the vinyl record clamp will do its job on its own.
